DETAILED ACTION

Reasons for Allowance

1. Claims 1-3, 5-7, 9-14, 16-18 and 20-22 are allowed.
2. The following is an examiner's statement of reasons for allowance:

Claim 1 recites an apparatus for automatically exchanging components in soft-error testing computer chips having at least one additional main body adapted to exchange components in soft-error testing of computer chips wherein the components comprise beam degraders, in combination with other elements of the claim. Since claims 2-3, 5-7 and 9-11 depend from claim 1, they are also allowed.

Claim 12 recites a method for automatically exchanging components in soft-error testing computer chips providing at least one additional main body adapted to exchange components in soft-error testing of computer chips wherein the components comprise beam degraders, in combination with other elements of the claim. Since claims 13-14, 16-18 and 20-22 depend from claim 12, they are also allowed.

Claim 23 recites a program storage device to perform method steps for automatically exchanging components in soft-error testing computer chips providing at least one additional main body adapted to exchange components in soft-error testing of computer chips wherein the components comprise beam degraders, in combination with other elements of the claim.

These features of the claims in combination with other elements are neither disclosed nor suggested in the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Burroughs et al. (US 5,850,145) discloses an "Apparatus and method for soft error comparison testing".
